# Securens wins 'Control Room of the Year' at Shield Awards

Securens Systems' Central Alarm Monitoring Station has won the 'Control Room of the Year' at Shield Awards. The country's leading e-surveillance company, Securens Systems was adjudged the 'control room of the year' for its state-of-the-art Central Alarm Monitoring Station that monitors leading Banks, Top Retail Stores, Popular QSRs, and Logistic firms across India. Pitted against some of the country's biggest names such as Axis Bank, ICICI Bank and L&T, Securens emerged as a winner. Shield Awards was organized on the sidelines of Secutech India which was participated

by world's leading companies in Security/Surveillance and Safety.

Securens has the largest network of surveillance systems spread across the country. Popularly known as the Central Alarm Monitoring Station (CMS), the technologically advanced control room is built on highly redundant and fail-safe architecture known for preventing crime before it happen. The CMS monitors more than 21,000 sites 24/7 across

India and houses over 100 monitoring personnel.

Securens uses 5th Generation technology that not only detects Burglary as it is happening but will also attempt to deter it immediately using the powerful Video Verification and 2-way communication.

Sunil Udupa, Chairman and Managing Director of Securens Systems, said, "E-Surveillance plays a significant role in incident prevention and detection. Many enterprises are adopting video surveillance not only to deter crime but also to improve business operations. Our CMS consists of

Hi-Technology combined with refined process for detection and deterrence based on our considerable experience. The award is a matter of pride as our CMS has no parallel in the country."

Secutech India is country's largest and professionally organized global security show in India catering to leading security and safety companies around the world. Shield awards are dedicated to recognize efforts, acknowledge hard work and reward excellence of eminent individual's/ organizations from the industry of security, fire and safety.
